**DETAILED ACTION**

***Allowable Subject Matter***

1. Claims 1-5, 7-15, 17-25 and 27-55 are allowed.
2. The following is an examiner's statement of reasons for allowance: Examiner agrees with Applicants that the PC 103 in Kogge'856 cannot teach the third register as recited in claim 1. Therefore, the cited prior art, does not teach or fairly suggest: the execution core is configured to store a first address in the third register responsive to the first instruction, wherein the first address is an address of a second instruction following the first instruction (claims 1, and claims 11, 21, and 31 recite the corresponding limitations as set forth in claim 1); and regarding claims 43, 48, and 52, Examiner agrees with Applicants that Tran et al.'734 generally teaches that instructions can have different operand sizes, nothing in this teaching describes establishing the operating mode for a second instruction responsive to the operand size of the first instruction.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
